When has any democratic country given Armed International Intruders safe haven ? When has any democratic country been so kind as to allow international bandits clipped to the teeth with weapons safe haven in our country ? Who is this Government kidding ?

This is the exact reason Tun M said that we need a strong Government. A Government with 2/3 majority. Then only will decisive action always be taken and this incident in Lahad Datu would not have arrised at all. What is going on ? Why has the AG, the courts, the security forces and the politicians all keeping silent on such a serious affair ?

Now every Tom Dick and Harry from international waters will be landing 150km from Lahad Datu because its a safe haven for them. Maybe now Somalia can also send their pirates to Lahad Datu to make it a temporary base for them to operate in this region. Why not right ? Since we welcome with open arms armed bandits, people with guns and arms to land in our country. Maybe they have IC's ? Maybe this is another project IC. Get the filipino's to come en-mass to Sabah just in time for the 13th General Election. Only problem is that the people now know about it.

When the government is weak, these are the sort of situations that will arise. The KDN Minister said dont make assumptions. Listen Listen Listen. This is our country. Not just yours. UMNO has to learn that we are the people, not just you UMNO. Wake up before our country is infested with armed international intruders.
